

Payroll Deduction Form

“For the Children and Those Who Teach Them....”

The Jewell Education Foundation has been created specifically to support the children and teachers of Warren County by enriching the educational opportunities and experiences currently available through public education. The endowment operates under the umbrella of The Warren County Foundation.

“The mission of the nonprofit Jewell Education Foundation is to provide superior educational opportunities for all public school children and teachers in Warren County, Ohio, by promoting a secure, flexible, efficient, and lasting alternative funding source that benefits both donors and recipients.”

The Jewell Education Foundation is a fund to promote programs and activities of Warren County Schools through donations and gifts. While the fund benefits the schools, it is not driven by them. Superintendents or designated community representatives provide input to a board of directors regarding possible uses for the funds.

The funds may be used to promote excellence in a variety of endeavors, including (but not limited to):

- Conflict resolution
- Fine/performing arts
- Parent education programs and resources
- Student academic achievement
- Teacher support
- Youth and senior citizen volunteerism

The Jewell Education Foundation has three roles: to identify changing needs in the schools, to find resources to endow funds so these changing needs will be met, and to responsibly allocate resources to help meet these needs.

The endowment provides a tax-deductible avenue for individuals, businesses, corporations, industries, and civic organizations to create a lasting legacy for the future of education in Warren County. The Payroll Deduction Form will provide a non-specific gift to build the endowment. If interested in a specific gift contact: The Jewell Education Foundation at 513-265-0450 for more information.
